4. Special Features

AERO-MATE Tank Recoil System has some special features

4.1 Automatic in-position

When esc is powered on, esc will check position of 88 Gun. If it is not in-position, esc will drive motor to finish the job. If it fails, esc will make a warning.

4.2 Mechanics Jam Protection

Whenever mechanics jam happens, esc will make a warning to prevent further mechanics damage.

4.3 Low battery warning

When battery is under 6V, esc will make a warning.

| SN | 88 Gun Firing LED | Possible Reason/Solution | | | |
|----|--------------------|----------------------------|--|--|--|
| 1 | Long Flashing | Recoil switch is open or | | | |
| | | mechanics jam when power | | | |
| | | is on. | | | |
| 2 | Short Flashing | Recoil switch is open or | | | |
| | | mechanics jam when after a | | | |
| | | firing. | | | |
| 3 | Two short Flashing | Low battery | | | |
| | | | | | |
